THE POSSIBILITIES ARE INFINITE

### Able to scan colour documents at an impressive 15 ppm

The fi-5015C is able to scan fifteen Letter size pages (150 dpi) a minute in colour. And in addition to being fast, an ability to continuously scan up to 50 pages at a time makes the fi-5015C ideal for speedily digitizing volumes of paper.

### ADF / Flatbed tandem scanner

In addition to being able to continuously scan regular sized paper documents with its ADF, the fi-5015C is able to digitize bound documents, such as brochures, and irregularly sized documents with its flatbed. The result of this powerful ADF / flatbed tandem is that the fi-5015C can scan anything that end-users want to digitize.

### Environmental compatibility

The fi-5015C is fully compliant with the RoHS Act, a European regulation, which places limits on the use of hazardous substances in electrical equipment. Furthermore, it is an ENERGYSTAR® compatible product that switches to an energy efficient sleep mode that uses 6 W or less when not in use.
